

Junior Achievement Group Visits Tek

ONE OF J.A. TOUR HIGHLIGHTS was a trip through the Data Systems department. Left— Moi Abrego (Data Systems Representative to Cost Accounting) explains his job responsibilities to Pat Harris, Washington high school senior. Center— the group and its advisors watch Doug

Hubbard (Operations manager) and Bernie Rilatt (tab operator) demonstrate the 084 sorter. Right— Diane Ferguson, Grant high school student, was interested in the work of key-punch operator, Joyce Trumbull. The Junior Achievers toured the Electron Devices building, Metals building, IO building, Warehouse and Plant 1 Monday afternoon.

Tek Spring Classes To Be Organized On 'First Come, First Served' Plan

Tek Evening Classes

The spring term for Tek evening classes begins the week of March 26. These classes are open to all Tektronix employees and are held after working hours. See the course descriptions on page three of today's Tekweek.

How to register:

1. Ask your department secretary for a registration card. Use a separate card for each course you want to attend.
2. Please print all information.
3. Send the card to Education, delivery station 97-250 via interplant mail.
4. The deadline for sending in cards is Thursday, March 22.
5. Register only for those courses you are sure you can attend.

Classes will be filled on a "first come, first served" basis. If a class is filled when your card is received, you'll be notified immediately.

Outside Courses and Tuition Refund

Spring term evening classes begin March 19 for Portland Community college. March 26 is the start of spring term at Beaverton High Adult Education, Multnomah, Portland Center and Clark college. Check the bulletin board in your area for schedules and registration instructions for these and other community evening classes.

The deadline for Tuition Refund applications is TWO WEEKS after the first class meeting. Ask your department secretary for an application form.

For more information on Tek classes or Tuition Refund, call Education department, extension 311 or 322.

Discount Available 'West Side Story'

A Tektronix theatre party has been set for Wednesday evening, April 25, at the Music Box theatre.

A 20 per cent discount on reserved seat tickets for the film performance of "West Side Story" is being offered to Tek employees, their families and friends, according to Tom Williams (Plant Supporting Services).

Discount application forms may be obtained at reception desks in all buildings or by calling the IO building receptionist, extension 401. All ticket mail orders, accompanied by checks payable to the Music Box theatre, must be mailed to the theatre no later than April 20, to qualify for the discount.

Tickets may also be purchased at the theatre box office by using the application form provided by Tektronix. No tickets will be sold or delivered at Tek.

Operation Moves From Research To IM

The semiconductor manufacturing operation transferred from the Research division to the Capacitor department of Instrument Manufacturing on March 4.

Kenneth Hoggatt is department manager. The group is located in the Sunset plant.

Personnel Changes Made In Domestic Marketing

The following changes have been made in Field Engineering, according to Jack Cassidy (Domestic Marketing Manager): Rollie Smith (Field Training Manager) and Bob Wruble (Factory Instrument Repair Manager) report directly to George Edens. John Mulvey (Field Information Manager) continues to report to George. George Edens' office is in the Retirement Trust building so he can be in closer contact with these groups. Future plans call for relocating George's office and Field Information in the Sunset plant next to Design Engineering.

Mearl Martin has moved to Domestic Marketing Staff in the IO building, where he functions primarily as Domestic Marketing liaison to the Domestic Planning group. Mearl reports directly to Jack Cassidy. The job of Field Support Manager will no longer exist.

Dick McMillan continues to be responsible for Domestic Marketing Field Administrative activities, now reporting directly to Jack Cassidy.

VISITOR FROM TOKYO, Mr. Y. Nakajima, explains the use of his company's products to Scotty Pyle (International Marketing manager) Mr. Nakajima is chief of the Administrative Section of Iwasaki Technical Laboratories, Iwasaki Communication Apparatus Co., Ltd., in Tokyo, Japan.

Tax Payers Asked To Observe 'Musts'

When you mail that check or money order for Federal taxes, be sure Uncle Sam doesn't have to guess which Joe Smith, Tom Brown or Joe Zilch to credit. A. G. Erickson, Internal Revenue director for the Oregon district, said today that each year he receives many payments that are not properly identified.

As a result, he said, some of the taxpayers involved may not receive proper credit, or payments to their tax accounts may not be recorded until after considerable delay occasioned by checking records or exchanging correspondence.

In some instances, taxpayers may even continue to receive bills for taxes they had sought to pay, he added.

To avoid such pitfalls, Mr. Erickson said, persons making payments to the Internal Revenue Service should observe these "musts":

1. Follow carefully the instructions accompanying each return, bill or notice.
2. Be sure to enclose with your remittance the properly completed return, or the director's copy of the bill or notice as indicated. It is best to attach these forms to your check or money order.
3. Where your account number is given, enter it on your check.
4. Print your name and address legibly wherever called for.
5. Be sure you mail your remittance to the proper Internal Revenue office

Tek's Employment Manager Speaks On Linfield Panel

Irv Smith, Employment and Recruiting manager, participated last week in a panel discussion at Linfield college in McMinnville.

The panel discussion was part of a special seminar entitled "Economic Potential of Northwest Oregon," and was sponsored by Linfield college and the Oregon State Department of Employment. Howard Vollum, who was originally scheduled to participate, was unable to attend and asked Irv to substitute.

Irv, one of four men representing Northwest industry, spoke briefly on "Recruitment and Training for Special Requirements" and took part in a question-answer session. Others on the panel were executives of Lektro, Inc. in Astoria, Norwest Fabrics, Inc. in McMinnville and Oregon Primate Research Center in Orenco.

Safety Coordinator Added To Personnel Services

Dick Kenyon has joined the Personnel Services staff as safety coordinator, reporting to Don Kepler.

He will supervise Tektronix first aid and health, and workmen's compensation programs, and will act as central safety contact point for outside organizations and individuals.

Dick will maintain Tek safety statistics and prepare safety performance reports (keeping track of lost-time accidents and so on).

Dick comes to Tektronix from Birds Eye in Hillsboro, where he was plant personnel manager and assistant regional personnel manager, coordinating safety programs for the five West Coast Birds Eye plants.

Stan Kovac To Speak At AIEE Sessions

Stan Kovac (F & M Manufacturing Engineering manager) is scheduled to speak at the annual conference of the Portland chapter of the American Institute of Industrial Engineers, April 13 and 14.

His topic will be "Value Analysis."

Dick Ropiequet Leads Discussion Group

The Oregon Foundation for Adult Education extends an invitation to Tektronix employees and their friends to attend an eleven-week adult discussion group, "The Exploration of the Universe." The group will be led by Dick Ropiequet (Future Products Engineering manager) and will hold its initial meeting next Wednesday, March 21, in room 210A of Eliot hall on the Reed college campus.

The series will offer an understanding of what today's advances in science mean to people as individuals living in the United States.

Fees for the series (including the use of books) are \$15 for an individual and \$22 for married couples. For further information contact Marge Guthrie, extension 398 Sunset or CA 3-2822. Notices will be posted on all bulletin boards. Employees and their friends may attend the first session without obligation.

SPRING TERM TEK EVENING CLASSES

COURSE NO.	COURSE TITLE, LENGTH AND DESCRIPTION	INTENDED FOR	MEETS	FEE
Electronics				
121	BEGINNING ELECTRONICS, PART II (VACUUM TUBES) Ten weeks. This course completes the beginning electronics program by explaining how vacuum tubes and other components are used. This is not a course on specific circuits.	All employees.	Instrument Manufacturing Training classroom 3 Plant IV 7 to 9 p.m. Monday, March 26.	\$4.00
210	PRINCIPLES OF TRANSISTORS Ten weeks. A non-technical introduction to transistors and other semi-conductor devices. Includes: basic physics, circuit configurations and uses, types of transistors.	All employees. Students should have an understanding of basic electronics theory for this course.	Instrument Manufacturing Training classroom 3, Plant IV 7 to 9 p.m. Thursday, March 29	\$4.00
Industrial				
510 *	QUALITY CONTROL STATISTICS Ten weeks. This introductory course presents practical examples of putting manufacturing information to work. How and why data is gathered, recorded, summarized and applied to help maintain quality. PREREQUISITE: High school algebra or equivalent. Homework assignments.	Managers and staff who work with quality control records and information.	Room E-1 Sunset high school 7 to 9 p.m. Thursday, March 29.	\$4.00
660 *	PROPERTIES OF PLASTICS AND CERAMICS Eight weeks. A non-technical survey of plastics and ceramics used in electronic equipment. Covers: mechanical and electrical properties of these materials, plus typical production methods. Factors in choosing the best material for the job.	Persons who need a working knowledge of these materials, or whose jobs bring them in contact with the plastics and ceramics production areas.	Metals building main conference room, 7 to 9 p.m. Tuesday, March 27.	\$4.00
703	MICROMETER AND VERNIER READING Three weeks. Short course on using micrometers and vernier calipers. Demonstrations and practice in the accurate measurement of length, diameter, depth of holes, etc.	Persons who need this skill in their work.	Plant I classroom, 4 to 5:30 p.m. Wednesday, April 4.	None
745	ADVANCED SKETCHING Eight weeks. Guidance and practice in sketching 3-views of objects, plus more detailed work with pictorial drawings, dimensioning and shading. PREREQUISITE: Knowledge of oblique and isometric sketching techniques. Homework assignments.	Machinists, shop personnel or anyone who uses sketching to explain an idea to others.	Plant I classroom, 7 to 9 p.m. Tuesday, March 27.	None
Personal Development				
395	BETTER WRITING Ten weeks. Principles of clear writing, with emphasis on correcting common writing faults. Practice in using short words, building understandable sentences, saying what you mean. Accurate reporting. Giving clear directions and instructions. Building a working vocabulary. Homework assignments.	All employees.	Room E-5, Sunset high school, 7 to 9 p.m. Monday, March 26.	\$4.00
— *	READING IMPROVEMENT Eight to ten weeks. This course is planned to increase the student's speed and comprehension in reading. Practice in overcoming the habits that limit reading abilities. Homework assignments.	Managers, technical and staff personnel whose jobs require a large amount of reading. Limited registration.	Starting in April, 7 to 8:30 a.m., two mornings per week. Notices will be sent to all who register, telling place and date.	None

* **NEW THIS TERM.**

PLANT 2, PLANNING

We had a chicken dinner to welcome **Gary Talley** into our group. **Belva Ann Yoss** supplied the dessert.

The Planning group surprised **Paul Miller** (Stock Manager) March 7, with a "papa" shower. Paul and his wife, **Martha**, adopted a baby boy, **Timothy Paul**, born February 26. Planning 2 congratulates the Miller family!

Ellen Holmes won eighth place in the Women's Sweeper in the Tek Bug bowling league. **Sheila Day** received the prize for the "most improved woman bowler."

CABLES & WIRE PREP, PLANT 1

Arlene Tauscher is on loan from Kit Prep. **Lana Mangan** is now in Wire Prep.

ASSEMBLY, PLANT 2

Betty Nunnenkamp became a grandmother for the first time; her new grandson is the first boy born in her family in 41 years.

Lorna Walton's husband has been stationed in Hawaii.

We had a smorg.

CUSTOM & MILITARIZED INSTRUMENTS

We had a potluck honoring new arrivals in the department. **Joan Betzer**, and **Shirley Jamerson** are new hires; **Sharon Garner** and **Cathy Brown** transferred from Plant 3 Unit Wiring; **Doeke Gerbracht** transferred from Q.C. Test III.

Elsie Blatter is back after a leave of absence.

Betty Sitzberger is our new group rep; **Ben Demise** is alternate; **Merlin Mack** is social chairman; and **Joe Maples** is reporter.

UNIT WIRING, PLANT 1

March birthdays of **Gloria Van Fleet** and **Jeannette Traughberg** were celebrated with cake.

Darlene McCake has taken leave of absence.

FINALS, PLANT 1 FABLES FROM FINALS

Ed Norton and **Don Handbury** are on loan from Plant 2. **Julius DeJode** is on loan from cabinetizing.

We welcome **Buzz Beiser** and **Gary Kersey** to our group.

Bob Pickering is terminating March 16, and **Chuck Barrows** is taking an education leave.

ASSEMBLY, PLANT 3 LUKE'S SPOOKS

Jo Ann Olson is new in Cables, working temporarily until August when she will begin to teach school.

FABRICATION & MOLDING QUALITY ASSURANCE

Pat Erickson was presented a gift March 9, at a cake and ice cream party given in her honor. She transferred to International Marketing. **Bertha Sugura** is taking her place as secretary.

ACCESSORIES, SWING SHIFT

Hats off to **Rod Binger** for helping two girls in distress. The girls, **Mary** and **Zania Breazile**, were thankful to get their car fixed. The trouble: tire chains were tangled around the axle.

CRT BULB PREP

BOTTLE BABES

We had cake and coffee to celebrate February birthdays of **Marge Caire**, **Louise Hamnett**, **Margaret Lee**, **Thelma Fritchard** and **Jessie Jordan**.

Mary Lou Peterson is new to our group. **Linda**, daughter of **Tae Akamatsu**, is one of the finalists for *Glamour* magazine's "Ten Best Dressed College Girls of 1962". The ten winners will be selected later this month.

ASSEMBLY, PLANT 2 ELROY FARAH'S WHEELS

A baby shower and "smorg" were given for **Doris Cushman** who will be on maternity leave soon.

Our welcome to **Mary Legler** who is a transfer from swing shift.

ASSEMBLY, PLANT 2 FRIENDSHIP VII SWINGERS

Ann King, who worked at Tek for the past five years, joined the Air Force with a 2nd Lieut. rating. After three months' officers candidate school, she will be trained in the field of aero space medicine.

We will miss **Betty Smith** who is moving to Oakland, California, after being with Tek for two years.

ASSEMBLY, PLANT 2 DOUG'S LADIES

Marge Fletcher's son, **Ed**, placed first in the Pacific Coast Inter-collegiate Wrestling tournament in the 115 lb. weight division. He is on the Oregon State University wrestling team.

Our group and the Training group held a bridal shower for **Jean Steffen**.

ASSEMBLY, PLANT 2 PHIL MALLERY'S GANG

Cupcakes were served at a wedding shower for **Donnell Walton**.

Our new group rep is **Connie Brookens**; **Hazel Cook** is alternate; social chairman is **Letha Burgess**; and **June Frantz** is reporter.

CRT SMALL PARTS PREP ADAM'S EVES

We are all proud and happy about our move into the new E.D. bldg.

We had cake to celebrate February birthdays of **Ron Caldwell**, **Minnie Jones**, **Elsie Green** and **Marge Dudgeon**.

Ione Taylor has been on jury duty for the past few weeks.

Don Knowlton is our new group rep. **Vern Tupper** is the alternate.

TEK WEEK is published every Friday for Tektronix employees by the Communications department in cooperation with the Graphics Arts group, the Printing department and the Photography department. Send all copy to Tekweek, delivery station 74-298. Call extension 401 to place Trading Post ads. Copy deadlines: ads and departmental news, Friday morning; general news, Monday morning. Carol Day, editor; Becky Short, co-editor; extension 405.

We wish to thank all Tek employees for the expressions of kindness and sympathy at the recent death of my father.

Grace Phares & family,
Wire Prep, Plant 1

The kindness and sympathy expressed at the death of my father was greatly appreciated.

Wanda Hoselton,
Accessories

I wish to thank everyone for the good wishes, cards and flowers sent during my illness.

Andy Briggs,
F & M Production Planning

ASSEMBLY, PLANT 3 JOHNSON'S JESTERS

Donna Knapp is our new group rep; **Lois Schultz** is alternate; **Judy Norby** is social representative; and **Mary Clem** is reporter.

We had a wedding shower last Friday for **George Kolababa**. He will be leaving soon for 6 months' military duty.

Ruth Sherman and **Beth Economas** from recently joined our group.

UNIT WIRING, PLANT 1

Joyce Braukman has left our group; she is now a trainer in Bill Henningson's swing shift training group.

ASSEMBLY, PLANT 2 DON'S DUCKS

Claire E. Tuttle is now in our group from training.

ASSEMBLY, PLANT 2 DALE'S DAYDREAMERS

Lalah Smock is back after a long illness. We had a smorg honoring **Earl DeVine**, who is leaving for the army.

ASSEMBLY, PLANT 3 MARSHALL'S DEPUTIES

Jan Waldo and **Erlene Miller** are back after maternity leaves.

Chuck Harding and **Lillian Meyer** had birthdays this week.

Etta Johnson and **Verna Nyseth** are both hospitalized.

FACILITIES

Joe Martin and his wife, **Mary**, thank all those who sent cards following their recent automobile accident.

SUPPORT GROUP, PLANT 2

Len Nelson is our new utility man in Kit Prep.

Iola Searles treated the Cables to wedding cake. Her daughter is attending a cake decorating school which explains the wedding cake.

TELA-TEKS, SWITCHBOARD

Grayce Hitchcock is working day shift, now that she's back at work after her recent illness.

Alice Falkner is new in our department; **Mary Michael** is transferring to Stock-Warehouse.

TRANSFORMERS

Barney Gregory was with Tek thirteen years March 7. Barney was one of Tek's early employees. When Transformers was first formed at Tek, Barney and Gordon Sloat were IT.

3-BDRM: near Tek, lge. kitch., fam. rm., sep. din. rm., patio, fenced yd. \$15,500. MI 4-7391, Mrs. Heller.

Golf Tournament Slated

Bud Wall, Tek Golf club president, announced that the following officers were elected at the March 8 meeting: Margaret Ryan, vice president for women's tourneys; Dick Haning, handicap chairman; Derald Thornton and Doug Taylor, tournament coordinators; Pauline Johnson, tournament secretary; and Rod Peloquin, banquet chairman.

The Tek Golf club's first 1962 tournament is scheduled for Sunday, March 18, at Glendoveer golf course. Play will begin at 10:30 a.m. Bud emphasized that the ability to consistently break 100 over 18 holes is definitely not a requirement for participation in golf club activities. He pointed out that 75% of the active players in the club have averages under 100. Anyone desiring to enter the tournament should contact Pauline Johnson, ext. 7336, by 3:30 p.m. today.

The annual banquet will be held Saturday, April 7, at University of Portland. Dinner, dancing and door prizes highlight the evening.

"The main requirement for people attending the banquet is the ability to pronounce the word 'golf,'" Bud said. "This may be waived if the price of the ticket is offered." Further banquet information will be published later.

Jack Smits Named Honor Roller

Jack Smits (CRT Mechanical Equipment) was Honor Roller with a 204, 243, 170 — 617 series, in Tek Men's bowling league play March 8. Both Jack and Bud Jorgensen (D.O.Q.A.) bowled 243 games to share Hi Individual game honors.

job postings

Tek employees applying for positions published in JOB POSTINGS: contact Sherri Harms at the Employment office, ext. 7341 (8-7341 from Sunset). Although the posting usually appears in Tekweek only once, it sometimes takes several weeks to fill a position. **Employees may continue to apply for a job even though it is no longer posted.**

MAN: copy camera operator, day shift (J. P. No. 1117) for the Photography department of Instrument Manufacturing Production Services.
DUTIES: operate lithographic copy camera; mock-up, shoot and process film.
QUALIFICATIONS: copy camera experience desirable; perfectionist qualities; good eyes and good general physical condition; must work well with others or alone.

WOMAN: clerk-typist, day shift (J. P. No. 3031) for the Material Control department of Material Management.
DUTIES: post to Kardex records; up-date bills of material; answer phone; do simple mathematical calculations; type required reports.
QUALIFICATIONS: shorthand desirable, but not necessary.

WOMAN: record retention clerk, day shift (J. P. No. 2181) for the Accounting department of Finance.
DUTIES: operate microfilm camera and reader-printer; index and cross-reference microfilms; edit developed microfilm for quality of reproduction; schedule microfilm records for destruction; obtain duplication of microfilm for separate security storage.
QUALIFICATIONS: ability to work alone with moderate supervision; initiative, accuracy and attention to detail; capable of handling confidential material and making decisions.

MAN: mechanical engineer, day shift (J. P. No. 1164) for the Components and Materials group of the Domestic Operations Quality Assurance department.
DUTIES: determine acceptability of established component and material mechanical specifications and workmanship standards; assure conformance to established mechanical specifications and workmanship standards of components and materials; organize and conduct studies in field of Quality Assurance.
QUALIFICATIONS: background in mechanics, machine processes and materials; bachelor of science in mechanical engineering desired; ability to communicate accurately and clearly both verbally and in writing; must be able to analyze and evaluate results of technical reports; must be able to get along with others, be tactful.

WOMAN: technical aide, day shift (J. P. No. 3057) for the Semi-Conductor Devices department of Research.
DUTIES: fabrication and testing of semiconductor products.
QUALIFICATIONS: some laboratory experience; one-two years college or equivalent; some chemistry background, college preferred; dexterity in order to do fine and meticulous assembly; ability to get along well with fellow employees.

MEN: two specifications writers, day shift (J. P. No. 1165) for the Parts Description and Evaluation group of the Production Planning department of Instrument Manufacturing.
DUTIES: prepare specifications on parts describing dimensional, electrical, marking and test requirements; gather technical data from qualified sources and select applicable information; maintain records and files.
QUALIFICATIONS: must have drafting experience including isometric drawing; general knowledge of Tek parts; research ability; technical writing experience desirable but not essential; must be able to meet and get along well with people.

MEN: (three) large press operators (J. P. No. 3170) for the Molding group of the Plastics department of Fabrication and Molding; one works day shift, two work swing shift.
DUTIES: use tools and equipment with care; determine when pressure and temperature setting need changing; work safely; keep work area clean and orderly.
QUALIFICATIONS: bi-manual coordination, mechanical aptitude; initiative, adaptability, experience desirable, but not a necessity.

WOMEN: (three) small press operators (J. P. No. 3172) for the Molding group of the Plastics department of Fabrication and Molding; one works day shift, two work swing shift.
DUTIES: produce a maximum number of quality parts in a minimum amount of time; use tools and equipment with care; determine when pressure and temperature setting need changing; work safely.
QUALIFICATIONS: memory for ideas, bi-manual coordination, mechanical aptitude; initiative, adaptability; 1-3 years experience.

WOMAN: clerk-typist, day shift (J. P. No. 266) for the Test-Final staff, Plant 2, of Instrument Manufacturing.
DUTIES: type, file. Keep instrument records; work with IBM cards and answer telephone.
QUALIFICATIONS: accurate typist, good with figures and able to work with a minimum of supervision; good physical condition and pleasing personality.

MAN: metal finishing operator, day shift (J. P. No. 3671) for the Mechanical Processing group of Electrochemical department of Fabrication & Molding.
DUTIES: buff, polish, burnish or tumble small parts in preparation of surface for plating.
QUALIFICATIONS: buffing and polishing experience, two years; barrel finishing, three years; finger dexterity, mechanical aptitude, attention to details, color vision, normal degree of depth perception.
