Tektronix, Inc., Beaverton, Ore., Oct. 25, 1963, vol. 4, no. 28

Total UGN receipts short of goal; average gift per donee increases

United Good Neighbor campaign results for Tektronix were finalized Tuesday. Tek's UGN campaign chairman Bob Fitzgerald (Vice-president, Operations) released the report which showed a total contribution of \$95,488—a figure under the \$100,000 goal set for employees this year.

The total contribution also was less than the 1962 total employee donation of \$97,098. Yet the average gift per donee during this year's drive was \$27.16, compared to the \$23.84 average gift last year.

General administration and Legal staff headed the list of "Percentage of Group Contributing" with their 100 per cent; Central Staff Services and Finance took second position with a tied 93 per cent.

Tektronix, Inc. will not receive UGN Bronze Plaque award as we have for the past three years. We will, however, be recognized as a "Blue Ribbon" company for our increase in Average Gift and Average Per Capita donation.

Individual departments at Tek that contributed 85 per cent or more in "Percentage of Group Contributing" will receive Blue Ribbon awards from UGN.

Representatives from the "85 per cent or above" departments will be selected to attend the Thursday, October 31, UGN awards luncheon at the Multnomah hotel when Tektronix accepts its Blue Ribbon award.

Chest X-ray unit visits next week

Next Monday is the first day of the mobile X-ray unit's visit to Tektronix industrial park. Following is the schedule for the five-day visit:

- October 28: Sunset—11 a.m. to 5 p.m.
- October 29: IO Bldg.—9 a.m. to 5 p.m.
- October 30: Bldg. 45—9:30 a.m. to 6 p.m.
- October 31: Bldg. 45—7 a.m. to 3:30 p.m.
- November 1: Bldg. 45—7 a.m. to 3:30 p.m.

Lois Addington reminds employees to complete the registration card and have it with you when you report to the mobile unit for your chest X-ray. Also minors (single under 21) must have written permission

Tek's Blood Drive Chairman, Don Pratt, reports next Friday's drawing in building 19 cafeteria is the last one for the year, and that the 584 pints collected so far this year are far below the 1200-pint-goal.

Even though the drawing is scheduled for Group III (Plas-matics) any employee may donate. This is true of all Tek drawings, Don added.

Tuesday, the group reps held a combined meeting where discussion centered on Tektronix' blood program. Dr. Robert Pittinger, director of Pacific NW Regional Blood Center, Gene Slick, director of Blood Program, Red Cross Oregon Trail Chapter, Lois Addington, R.N. (Health Services) and Don comprised the panel who answered questions asked by the group reps.

The drawing will be held next Friday, from 1 to 6 p.m. in the bldg. 19 cafeteria. Don asked that employees planning to donate, who are not members of Group III, drop him a note with their name on it, so he'll be prepared to handle a larger crowd if necessary.

This week an emergency involving a Tek employee has required many pints of blood. During the past several months two open heart surgeries (one for an employee, the other for an employee's wife) called for 30 pints each. "If you are in good health, and able to donate, I urge you to consider giving a pint next Friday," Don said.

Tek 1963 UGN Results

	(1962) Last Year	(1963) This Year			
Average Gift	\$23.84	\$27.16			
Average Per Capita	\$20.18	\$22.34			
Employee Participation	85.2%	83%			
Total Employee Contribution	\$97,098	\$95,488			
	Average Gift	Amount per Capita	% of Group Contributing	% of UGN Full Share	Total Amount
Cathode Ray Tube	\$ 23.57	\$ 19.74	83%	65%	\$ 5,232
Central Staff Services	30.45	28.46	93	102	6,091
Fabrication & Molding	21.83	18.63	85	67	11,180
Finance	61.68	57.96	93	149	4,811
Future Products	32.83	21.88	66	28	394
General Admin. & Legal Staff	800.84	800.84	100	186	10,411
Instrument Design	38.83	30.58	78	59	7,922
Instrument Manufacturing	20.21	15.72	78	63	34,333
Marketing	29.30	21.77	74	52	5,510
Materials Management	22.93	18.73	81	77	4,702
Personnel	20.94	18.73	89	65	1,424
Research	30.28	24.22	80	48	1,696
Systems & Planning	28.27	24.07	85	72	1,782
SUMMARY	\$ 27.16	\$ 22.34	83%	74%	\$95,488

NOTE: 1) Campaign started prior to recent Engineering organization changes.
2) % full share calculated by summarizing individual full share contribution suggested by UGN scale and dividing sum into total contribution by unit.

Second union letter to employees plugs for NLRB election petition

The second "Tek Newsletter" of the year, sent by the International Union of Electrical, Radio & Machine Workers, AFL-CIO, has been received by an undetermined number of Tektronix, Inc. employees.

The letter, postmarked October 18, included a few newspaper or magazine clippings on "Automation Seen Cause of Massive Job Losses." The publication was not endorsed by Tektronix.

A business reply envelope was mailed along with the "Tek News-

letter;" the envelope has a "petition and authorization" form on its reverse side, where the signee could call for an NLRB (National Labor Relations Board) election. It read:

"I, the undersigned, hereby authorize the International Union of Electrical, Radio and Machine Workers, IUE, AFL-CIO, to petition the National Labor Relations Board for an election as soon as possible.

"I also authorize the IUE, AFL-CIO, to act as my bargaining agent with the Company in regards to wages, hours and working conditions."

Scrap lumber available

Scrap lumber from the construction of the Electrochemical building is available to all Tektronix employees who obtain permits from the Facilities department for its removal from designated areas.

Please contact either Carl Jonason (ext. 457) or Roy Briggs (ext. 7208) for the permits. Salvageable material for the future construction will be in the same areas and this should not be removed.

Fractional share payment asked

Some TEKEM shareholders still have not exchanged their TEKEM certificates for the new Tektronix shares and some persons still have not paid for the additional fraction of a Tektronix share which they wanted to buy.

Those still holding TEKEM certificates are urged to send them in immediately to the Tektronix Exchange Agent in exchange for the new Tektronix, Inc. certificates.

Those who haven't purchased the additional fraction of a Tektronix share are urged to send in their payments now so that the fractional share certificates may be released.

Send the TEKEM certificates and checks for fractional shares to: Corporate Trust Division, United States National Bank of Portland, P. O. Box 3168, Portland 8, Oregon (Zip Code 97208).

Change of address cards are available this week in the reading racks for Tektronix, Inc. shareholders who moved to a new location. These cards are preaddressed but require a four-cent stamp for mailing.

DAYLIGHT TIME ENDS SUNDAY

Employees are reminded that Daylight Saving Time ends this weekend — Sunday, October 27, at 2 a.m.

Remember to set your clocks BACK one hour at 2 o'clock Sunday morning.

Eastern field offices plan displays for pending '63 NEC, NEREM shows

Tektronix field offices will have booths at two major regional electronics shows in October and November.

The Chicago field office will display the 647, 564, 661 and 567, with accessory equipment, at the National Electronics Conference (NEC) in Chicago October 28-30. In addition to field office personnel, the booth will be staffed with these Beaverton employees: Rudy Vuksich (Advertising), Ladd Goodman (Int'l Coordinator) Carl Battjes, Larry Biggs, Larry Mayhew, Dick Rhiger, Bill Verhoef, Ron Vuylsteke and Norm Winningstad, all of Engineering.

The following week, November 4-6, the Boston field office will display the same equipment at the

Northeastern Electronic Research and Engineering Meeting in Boston's Commonwealth Armory. Attending NEREM from Beaverton will be: Keith Williams (US Marketing mgr.), Harry Allison (Advertising); Lang Hedrick, Jim Knapton and John Kobbe, all of Engineering.

Dave Spinks transfers to Central Staff job

Dave Spinks has joined Central Staff Services as staff assistant; he transferred this week from the International Manufacturing staff.

Dave, employed at Tek since 1953, returned earlier this year from Tek Guernsey where he worked in personnel and training for the past five years. He can be reached at ext. 7152, delivery station 74/866.

He will report to Plant Supporting Services manager Tom Williams, who will assume some of the responsibilities in government and community relations formerly performed by Jack Day and Mike Brand.

Increased activity in patent, trademark and copyright protection, licensing and patent litigation require the full attention of Jack and Mike.

Students tour plants

Two student visitation programs took place last week at Tek when (1) Beaverton high school seniors participated in the school's Career Day, Wednesday, October 16, and when (2) three Tek men hosted three students in the American Society of Mechanical Engineers (ASME) Student-Meet-Industry Day, Thursday, October 17.

Tek visitor

TEK'S NEW ZEALAND DISTRIBUTOR, Warren McLean, from W & K McLean Ltd. visited International Marketing Monday. He is on the last leg of a comprehensive European and Scandinavian tour.

International managers meet

INTERNATIONAL DISCUSSIONS occupied Don Alvey (left) and Earl Wantland this week. Don returned Monday to Beaverton; Earl returned in August. They will direct International marketing and manufacturing activities from here, as part of the recent international restructuring. Don can be reached on ext. 209, delivery station 74/857.

1963 flu immunization shows slight decrease

Results of the recent flu immunization program have now been tabulated, and final figures show a drop over last year in the number of employees reporting for shots.

A total of 2,165 received booster shots during the October 11 clinics. Previous clinics, held October and December 1962, drew 2,639 and 2,693 respectively.

Lois Addington, R.N., (Health Services) reports the total was down somewhat from what she had hoped. She reminded employees who received immunization October 11 for the first time to report to their personal physician within 6 to 8 weeks to get the second shot in the series. Those who received the first two shots last fall and the booster shot this time, will not need further vaccine until next year.

TEKS in the news

Emerson Hoogstraat (Retirement Trust) will lecture November 7 and 14, during a 20-week series of classes sponsored by the Oregon Trail chapter of the National Secretaries Assn. Emerson's topic is "The History of Economics."

Tom Sloan (Employee Relations manager) participated in a panel discussion Sunday, October 6, at the Liberal Religious Youth of the First Unitarian church meeting. Topic: The Negro and Unemployment.

Guest speaker at the Beaverton Kiwanis recently was Bill Weber (Vice-president and Tektronix Foundation secretary). He explained the purpose and functions of the Tektronix Foundation.

Scotty Pyle and Dick Zahn, of International Marketing, attended the Western International Trade Group meeting in San Francisco, yesterday and today.

Statistics

BORN:

To Walter and Carolyn Duyck (Finals, Plant 2), a daughter, Cheryl Lynn, 7 lbs. 6 oz., October 3.
 To Jim and Kathy Freeman (Assembly, Plant 1), a son, Jason Richard, 6 lbs. 9 oz., September 26.
 To Dick and Kathy Cosier (Finals, Plant 2), a daughter, Susan Marie, 7 lbs. 11 oz., September 22.
 To Raymond and Janet Garrison (Accessories Test), a daughter, Laura Danette, 7 lbs., September 20.
 To Tom and Virginia Caldera (Assemblies), a daughter, Dawn Marie, 7 lbs. 12 oz., September 26.
 To Joe and JoAnn Ferris (Transformers), a daughter, Mary Alice, 6 lbs. 5 oz., October 8.
 To Brian and Dottie Christopher (PBX), a daughter, Sherry Marie, 6 lbs. 14 oz., September 14.
 To Jerry and Jane Fleury (Office Services), a daughter, Debbie Sue, 8 lbs. 1 oz., October 14.
 To Robert and Karen Meehan (Baltimore field office), a son, Terrence James, September 19.

MARRIED:

Mike Erickson (Assembly, Plant 3) and Jill Shephard, September 26.
 Diane Louise Chiotti (Assembly, Plant 1) and William Louis Dober, September 14.
 Charlene Kilgore (Unit Wiring, Plant 2) and Gene Kellerman, October 11.
 Ruth Truitt (Unit Wiring, Plant 1) and Jack Tolleisen, October 5.
 Andrew Allen Taylor (Shuttlebus) and Janet Faye Wright (Plant 2 Receptionist), October 12.
 Carol Hollingsworth (Credit sec'y) and Daryl Entrikin, October 13.
 Al Klein (Building Service) and Shirley Lee King (Assembly, Plant 3), October 19.

Thank You

Sincere thanks for cards and flowers received during my recent illness. Edna Botkin (Assembly, Plant 2).

Sincere thanks and appreciation for cards, flowers and letters during my recent stay in the hospital. Betty Freeman (Unit Wiring, Plant 3).

I want to thank all my friends for the beautiful flowers, the cards and the visits during my recent stay in the hospital. Esther Hall (CRT Shipping).

Thanks to everyone for the lovely flowers I received during my stay in the hospital. Sandi Homewood (Assembly, Plant 2).

John Wallen directs lab for U of O nursing staff

John Wallen (Human Relations Development) conducted a Human Relations training laboratory for the administrative staff of the Nursing Service of University of Oregon Medical School hospital.

Twenty-five head nurses and nursing supervisors spent three days last week, October 17-19, in the laboratory sessions.

Until late next spring, John is working at Tektronix on a part-time basis, spending a minimum of one-half day per week on special projects. He is not "on leave" as stated in an earlier issue of Tekweek.

Job Postings

Tektronix employees should contact Alice Kida, ext. 7620 (8-7620 from Sunset), to apply for positions listed in JOB POSTINGS.

CLERK: Man to work day shift for the Customer Service parts stockroom of US Marketing (J.P. no. 1877).

FUNCTIONS: Receive, check and distribute incoming stock.

QUALIFICATIONS: Proficiency with numbers; ability to identify parts, to count and measure accurately, to use care in handling parts and to process necessary paperwork; must be able to be on feet most of time; some heavy lifting required.

PROCESS ENGINEER: Men or women to work day shift for the Production Engineering department of CRT Manufacturing (J.P. no. 3839).

FUNCTIONS: Develop and/or evaluate new processes, materials and/or equipment to improve yield or reduce costs; write process specifications; supervise technicians; coordinate transfer of new materials and/or processes from Design Engineering into production; provide technical support to production.

QUALIFICATIONS: Degree in chemistry or chemical engineering (will accept physics or general engineering graduate with at least two years of chemistry).

RECORDS CLERK: Woman to work day shift for the Mechanical Support and Test Equipment Design and Fabrication groups of Cathode Ray Tube Manufacturing (J.P. no. 5871).

FUNCTIONS: Maintain personnel and work records; type reports and letters; set up and maintain files; answer telephones.

QUALIFICATIONS: Typing; knowledge of record keeping and filing helpful; accuracy; ability to work with little supervision; familiarity with company policy and procedures helpful; should like to work with figures.

CARS FOR SALE

'61 VESPA: low mileage, best offer. EL 7-9279.

'63 OLDS: wagon, 8-pass., pwr. steer & brakes, 5000 mi., excel. cond., factory guarantee, \$3595. Dick, ext. 7490 or 2-2433.

'63 FORD: 4-dr., stand. trans., 90% rubber, gd. cond. throughout, \$550 cash only. PR 1-7522 eves. aft. 8 or wknds.

'56 CHEV: r/h, rear speaker, auto., gd. uphol., 4-dr., blue & white, \$575. Nadine Grahn ext. 447 or 331-2956.

'59 FORD: 4-dr. sedan, custom 300, V-8, auto., pwr. brakes, new paint, gd. tires, \$1190. Brad Webb, ext. 7110 or BE 5-3746.

'46 CHEV: 3/4-ton pickup, gd. motor & tires, \$225. Steve, ext. 7606.

'63 SPRITE: Mark II, 7000 act. mi., extra hdtip., radio, w/w tires, excel. cond., older car in trade or make offer. Jim, 287-4406 aft. 5.

'55 PLYMOUTH: 4-dr. sedan, V-8, auto., r/h, had exceptional care, gd., clean, \$350. Jim, ext. 535 or CY 2-5496.

'55 TR-2: roadster, \$550 or trade on Chev pickup. Howard Bingham, ext. 7158 or PR 8-8411.

'63 TEMPEST: Lamans, loaded w/extras, less than 300 mi., \$2695. MI 8-2345.

'50 CHEV: 2-dr. sedan, 2 new tires, \$150. MI 6-1335.

'60 VW: all black, make offer. Ext. 7423 or MI 6-4368.

'51 STUDEBAKER: pickup, gd. cond., motor just o'hailed, \$325. PR 1-8165 or PR 4-1480.

'51 INTERNATIONAL: pickup, 3/4 ton, 4-speed, heavy-duty bumper & sides, custom tarp, \$400. Charlotte ext. 7797 or MI 8-6395.

'62 CORVETTE: black, soft top, fuel inject., \$3195. MI 8-3451.

'57 FORD: 2-dr., 8 cyl., auto., excel. cond., gd. tires, \$700 cash. MI 4-4183 or 3-30.

'63 OLDS: super 98, pampered, 4-dr., pwr. steer & brakes, \$600. 244-1672.

'49 DESOTO: very gd. cond., \$125. BU 9-0390.

'61 HARLEY DAVIDSON: sportster, all acces., low mileage, must sell, \$700 or best offer. Bruce Buckmaster, ext. 672 or 636-5334.

HOUSES FOR SALE

3-BDRM: new, 1 2/3 bath, hdwd. flrs., fp, gar., lge. lot, close to Tek, \$31,900. MI 4-2218.

3-BDRM: 2 bath, o'sized lot, fp, lge. liv. rm., din. rm., ent., birch kitch. & util., rugs & drapes, \$18,900. MI 8-3495 appt. only.

3-BDRM: 4 mos. old, view, fp, patio, carport, elec. heat, w/w carpet, builtin range, 1 1/2-A, stable for horse, \$11,950. MI 8-1913.

3-BDRM: Raleigh Hills, 1700 sq. ft., 2 bath, lge. fam. rm. w/fp, w/w carpet & fp in liv. rm., dble. gar., \$23,500. CH 6-4473.

PUPPIES: half cocker & half wire-haired terrier, 3 males & 5 females. JoAnn Whitlow, MI 4-4780.

Editors outline 'letters' policy

In response to the number of letters Tekweek received last week, the editors wish to restate the policy on publishing letters to the editor in employee publications. This statement appeared in the September 16, 1960 issue of Tek Talk:

Tektronix employee publications "will print any bona fide employee letter that (a) is not libelous—that is, does not defame a person or group; (b) is not too long; and (c) is signed, so that the editor knows it's genuine. If, for some reason—say, fear he might embarrass his superiors or department—the writer asks that his name not be published, it will be kept confidential."

In addition to these restrictions, the editors also have the unwritten obligation not to damage Tektronix' competitive position in the electronics field.

RIDES AVAILABLE

FROM PORTLAND'S EAST SIDE: to Sunset or Beav. plants, 7-3:30 shift. MO 5-6964 aft. 6.

Tek Holland employees enjoy 'rainy day' boat trip

Joop Kroon (Heerenveen) sent the following account of a boat trip combined with a picnic for all Heerenveen employees. The excursion was planned for August 31, the day after Tekweek's picnic issue, but Joop figured US Tekes would enjoy hearing about the good time Holland Tekes had:

It rained; it drizzled as we call it here. The "Tourist" was there and we were there. It was about 8 a.m., a time when normal people are still asleep on a Saturday morning. Just a little after 8 a.m. a boat left shore with 36 Tektronix men and women aboard. The boat-trip had started. For you people in the USA, I can say that many Frisian cows brought us a salute and that the famous windmills were there, too. Only that we were all wearing knickerbockers and wooden shoes is a misunderstanding. Now, what do you do when you find yourselves, 36 of you, together on a boat? You make jokes (oh sure) and sing of course. This way we reached Grouw, a very well-known Dutch Centre for Aquatic Sports, while we kept going on coffee. There, at Grouw, the whole gang was put ashore and was left on the loose. The young men looked for young ladies and the young ladies loved being looked for. The married ones threw themselves into Bacchus' arms (the coffee was pretty

bad, so cognac was preferred). The whole gang was back at the boat again—a quarter of an hour late. If the atmosphere had been good up till that moment, it now reached a climax. The boat did not sail anymore; it rocked! At 12:30 p.m. we disembarked at a little island. Though it is very unhealthy, we played football right after lunch. The teams were mixed, which undoubtedly increased

the spirit to attack "somebody." Tom MacLean was too lazy to join in. He left Janine behind with us and went sailing. Now the rumor goes that he is saving his shares to buy a Flying Dutchman. Playing football tires a person easily, so we started to do some other games to get more tired. One game is called "koekhappen," where pieces of gingerbread are tied to a string and hung up

(you are supposed to eat the gingerbread without touching it with your hands). We also had a sack race, which is even more fun. Tom's conscience was bothering him and he wanted to join in this time. We did not want to stay mad at him so we let him. Besides, we all wanted to see this "beginner" in a sack, too. To top it off, he nearly won the race. Luckily we had a couple of "kangaroo men" in our midst, so Europe did not suffer the disgrace of losing.

Time flies, especially when you are having fun. Everyone was getting sleepy and many of us took a little nap, led by Tom and Raoul Steffen (brother . . . can he ever sleep).

Usually the railway bridge opens at 5 o'clock and we were there five minutes early. It was Saturday, so the bridge did not open until 6 o'clock. At this moment it started raining again, actually it poured. Too bad that this should be the end of such a nice day. Holland is a "waterland." And yet, this was to be the cosiest hour of the day. Tektronix sang so loud that the boat trembled. We all thought ourselves to be Sinatra, Crosby, Durante, Como, etc. . . . Bonny was over the ocean of course. Tom told us (in a song) something about Highland—, Lowland—and other kinds of Dutch.

We all started to like each other, we even started to love each other (how it is possible on such a day).

Many regards to Earl and Edna Wantland; they really missed something. Well anyway then, they should not have gone away.

HOPPING HEERENVEENERS had this race "in the bag" during their boat trip to Grouw on August 31. Frequent rain during the day didn't put a damper on merriment.

Near triplicates dot Bug's scores

Tuesday, October 15, was an interesting afternoon of bowling at Valley Lanes for the Tek Bugs league. Six girls and one man had near triplicates.

Vern Hughes had 167, 167, 182; Lorrie Stewart had 155, 150, 150; Marge Livermore 140, 128, 140; Lorraine Irwin 122, 161, 161; Anna Aschwanden 127, 127, 128 (mightily close there!); Audrey Stephenson 108, 120, 108 and Carol Bozanich 107, 129, 107.

High series honors went to Alice Bryan (457) and Roger Tippet (596). Games over 200: Andy Anderson 202; John Winkelman 206; Harry Stewart 214; Arnold Brokaw 203; Bill Driver 202; Bob Pickett 221 and Roger Tippet 217, 212.

Tied for high series of the week in the Scopettes league were Wilma Stapleton and Sandy Jansen. Sandy also had high game of 210. A substitute bowler, Esther Sipe, rolled a 176 all-spare game.

Olympics Week declared

Receptionists at Tek are exchanging Winter Olympics lapel pins for \$1 donations to defray the expenses of the US team for the Winter Olympics in Austria.

Governor Mark O. Hatfield has named next week, October 27 to November 2, Winter Olympics Week in Oregon. The grand finale of the week-long fund drive will be the Olympic Ball, Saturday evening, November 2, at the Hilton hotel. Receptionists also have tickets available for this semi-formal dance.

Calendar

Blood drawing—Next Friday, November 1; Group III, the Plasmatics, donate; 1 to 6 p.m. in the Bldg. 19 cafeteria.
Halloween—Trick or Treaters will be out next Thursday, October 31.
Thanksgiving—November 28, holiday.
November 29—Paid plant shutdown day.

Teks offered discount for symphony series

Special discount envelopes are available at Tek receptionists' desks for 1963-64 Tuesday Night Cameo Series presented by the Portland Symphony Orchestra.

The series of six programs is scheduled from November 5, 1963 to March 17, 1964. All performances are at the Portland public auditorium at 8:30 p.m., with Jacques Singer as music director and conductor.

Special prices range from \$8.80 to \$16 (for the series) and from \$2.40 to \$3.20 (for single performances).

The following artists will appear during the series: Alexander Uninsky (piano), Joao Carlos Martins (piano), Luis Herrera De La Fuente (guest conductor), Isaac Stern (violin), Leonard Rose (cello), Byron Janis (piano) and Nicanor Zabaleta (harp).

ICRC elects officers

Duane Peck (Bridge club rep) was elected president of Tektronix' Interclub Recreation Council at their meeting October 9.

Other officers elected were: Roy Slack (Tek aqua rep), vice-president and Frank Arena (Men's Softball league rep), secretary-treasurer.

Next meeting of the ICRC is scheduled for December 11.

Wolverines keep paws on top slot as flag football clashes continue

TEK FLAG FOOTBALL LEAGUE

Fifth Week Standings

	W	L	PF	PA	Pct	GB
Wolverines (Whse. 70)	3	0	53	25	1.000	...
Stompers (Whse. 71)	3	1	109	79	.750	½
Alchemists (Electrochem)	2	2	96	80	.500	1½
Falcons (Finals)	1	2	45	77	.333	2
Thunderbolts (Plant 3)	0	4	52	94	.000	3½

LAST WEEK'S RESULTS

Wolverines vs. Falcons (postponed)
 Alchemists 39, Thunderbolts 25 (make-up game)

Stompers 33, Alchemists 19

NEXT WEEK'S GAMES

Tuesday: Wolverines vs. Stompers
 Thursday: Falcons vs. Thunderbolts
 Bye: Alchemists

By ED DAVIS

Tuesday's tooth vs. talon (Wolverines/Falcons) clash was postponed until a later date.

During Wednesday's make-up game from October 1, the storm raged, the Thunderbolts crashed, but the Alchemists laboratory was too well protected. Not only did the chemists endure the storm—they subdued it 39-25.

The Thunderbolts struck in the form of a TD run by Gordy Douglas, a Bill Hardin-to-Jerry McCabe pass combo for both a TD and extra point, and two end zone rambles by Vince McKee, both end results of Hardin passes. "Y. A." Hardin had an astounding 100 per cent pass completion record for the game—50 per cent to his team and 50 per cent to his opponents.

Alchemists' most effective catalyst, Marlin Marsh, failed to figure in every score for his team in this game; his teammate Dick Derbyshire ruined his chance by intercepting a pass and scoring. Then M. M. went to work: PAT to Derbyshire; razzle-dazzle TD M. to Chuck Stoop to Derbyshire; M. intercepts pass and scores TD; M. to Stoop TD, M. to Derbyshire PAT; M. to Derbyshire TD; M. to Stoop PAT; M. to Dick Glaze for final TD.

Thursday, the Alchemists, playing their second game in as many days, seemed to tire badly after a closely played 13-13 half-time score and were defeated, 33-19.

The Stompers, fast shaping up as the team to beat, kept up their furious offensive pace which has enabled them to average better than 27 points per game.

Fall 'clean-up' scheduled by Cedar Hills residents

Don Tucker (C/S Prov. Documentation), director of Homes Association of Cedar Hills, reminds employees who are Cedar Hills residents that the 1963 fall clean-up begins tomorrow.

Place trash on curbing before 8 a.m., according to the following schedule which is based on weekly pick-up routes:

Mon. & Tues.	Sat., Oct. 19
Wed.	Sat., Nov. 2
Thurs.	Sat., Nov. 9
Fri.	Sat., Nov. 16

This is a FREE pick-up. With the exception of large articles, place trash items in containers.
