MOD 797A

TYPE 321  
MOD 797A

The instrument for which this manual was prepared has been modified to provide a rear-panel VERT. IN. connected in parallel with the front-panel INPUT connector. The carrying handle and feet have been removed also. The following mechanical changes were necessary to make this modification. When ordering replacement parts, give a description of the part and specify instrument type, serial number and MOD number.

MECHANICAL PARTS LIST
