Credit Union Sets Annual Meeting For Sunday, January 20, at Tek

By Ted Shaver
Education Committee
Credit Union Board of Directors

The Tektronix Employees Federal Credit Union will hold its annual business meeting at 2 p.m. Sunday, January 20, in Building 45 cafeteria.

The nominating committee — Dick Montag, Sandy Sanford and King Handley—wish to present the following persons for consideration at the annual meeting:

For Board of Directors

Jay Chiodo

Jay has been with Tek since April 8, 1957. "As a member of the Tektronix Federal Credit Union, I will do my best to help direct the Credit Union for the best interest of all concerned."

Eleanor Ross

Eleanor has been with Tek since June 1951. "I have been a member of the Credit Union almost since it started and think it performs a very worthwhile service for Tek employees and their families. I should like to serve as a member of the group whose duties are to preserve and expand this very fine organization."

Dick Schmidt

Dick has been Treasurer of our Tek Credit Union since 1952. "I am seeking re-election because I believe experience on the board of directors of Tektronix Credit Union is necessary to effectively establish policy and reduce the possibility of discontinuity of long-range plans. I believe any organization suffers when the policy-making body changes too frequently. As our Credit Union grows in membership and assets, I hope my experience will aid in establishing policies that will best benefit you, the members."

Bob Scott

Bob is personnel manager in Fabrication & Molding and has been working with Tek since May 1961. "Our Credit Union is a 'credit' to Tektronix employees. Convenience and good service keep its doors swinging. I will gladly serve the Credit Union and its members."

Helen Thome

"My years of experience in Credit Union work will enable me to serve effectively on the board, and the best interests of the membership will be my prime concern."

Pierre Morinaud

Pierre has been employed at Tek for four years. "For four years I have enjoyed the benefit of being a Tek employee and would like to contribute to safe-

guarding and extending some of these benefits through service on our Credit Union board."

Ted Shaver

"Re-elect an experienced board member who has worked for you the past two years."

For Credit Committee

Glen Bunker

"I have served on the Credit Committee for the past year, the last four months as chairman, and I am interested in seeing the continuation of the policies and procedures which have been beneficial to the members and made our Credit Union successful."

Reg Halligan

Reg has had two years' experience as a Credit Union committee member before coming to Tek. "I feel that the Credit Union performs a very worthwhile and necessary service and would feel privileged to be a member of the Credit Committee."

Carl Taylor

Carl has been with Tek for the past two years and is now manager of the Material Control department. "Aside from my willingness to serve, I feel that the Credit Union plays a very important role with its service to Tek employees. Because of this, I would consider it a privilege to serve as a member of the Credit Union, in any capacity."

We hope that your Credit Union has served you in the manner you have a right to expect. Now, at annual meeting and election time, it is our turn to ask that you support your Credit Union with your presence and your vote. You are not just another "customer" to your Credit Union. As a member, you are also an owner. You not only have the privilege, but the responsibility, to help make decisions because democratic rule is the life blood of a credit union.

Controller Issues First Tek Accounting Manual

The Tektronix Financial and Accounting manual, compiled by J. E. Brokaw (Controller's staff), was distributed December 20 to regional marketing headquarters, overseas offices and Canada, various Beaverton department managers and staff accountants in IMSE and other areas.

"Broke" stated that the manual, compiled during the last several months, emphasizes the function of accounting as a management tool, and outlines techniques for accumulation and use of financial and cost data.

Tek's Junior Achievement Group Takes All-Day Tour of Operations

LEARNING ABOUT ITS SPONSOR—The Tektronix-sponsored Junior Achievement company toured the industrial park last Thursday. The high school students met employees and watched production and staff operations (story below).

Sixteen members of the Tek-sponsored Junior Achievement company toured Tek Thursday, December 27, viewing operations in the Ceramics, Metals and IO buildings and in Plant 1.

Pictured above are: (Girls 1. to r.) Sandra Smith, Sunset; Linda Coe, Sunset; Susan Wallace, Sunset; Winnefred Harpole, Jefferson; Alice McNicholas, Girls Poly; Jean Yeamans, Marshall; Susan Mead, Sunset; (Boys 1. to r.) John Stark, Sunset; Jim Carr, Benson; Gary Coe, Sunset; Richard Shimomura, Grant and Tyra Hutchens, Wilson.

George Milne, Benson, and Lee Soder, Wilson, were not pictured. JA president Tim Larson and Barbara Spent did not join the tour because they were attending the northwest JA regional conference in Tacoma.

Employee advisors acted as JA tour guides. They are Bob Swanson (Property Accounting), K. Niedhamer (Accessories Design), Arnold Labby (Employee Relations), Marcia Raymond (Accounting) and Dale Helbig (Instrument Engineering Model Shop).

Guests at a Hillvilla luncheon for the achievers were Jack Murdock (Chairman of Tektronix Board of Directors), Bill Webber (vice-president) and Mike Brand (Central Staff Service).

This year's JA company, named BLINKO, manufactures a safety flasher warning signal to be used for highway emergencies.

Coffee, Tea or Milk?

Eugene Landes Chooses Turkey

A group of Stock Warehouse employees watched a prank backfire in their faces one day before Christmas.

They told Eugene Landes, a newcomer to Tektronix' payroll, that each employee was given a ham or a turkey at Christmas. All you have to do, they went on, is tell your manager what you want—ham or turkey.

The pranksters snickered and snorted as Eugene made a beeline for unit manager Bill Love's office. Eugene went in and announced to Bill, "I'll take a turkey for Christmas this year—not ham." The warehousemen chortled with glee, thinking that their holiday joke was successful.

But not quite, they learned a few days later. Big-hearted Bill Love stood up on a chair during coffee break and spoke. He said that Tektronix always thought it would be a good idea to give its employees a turkey or ham for Christmas, but this year only one man in his group had indicated interest. He then presented Eugene, the object of the so-called joke, with a big gift-wrapped turkey.

Eugene ate turkey this Christmas; the rest of his group ate crow.

Employees' Beneficiary Assistance Fund Report

December 28, 1962

Balance on hand as of May 22, 1962		\$ 657.63
Received by payroll deduction, July 12, 1962	\$4,625.00	
Credit Union dividend	11.25	
	<u>\$4,635.25</u>	<u>4,635.25</u>

Total Claims in the amount of \$1000 each were paid for the following:

Allan H. Wagner, Catherine Schmid, Oren F. Fowler, Dorothy Melzer, Clara Stroup and Mary J. Lindley

Total claims paid \$6,000.00

Balance—December 28, 1962 —\$ 706.12

Deduction of \$1 per member will be made from the January 11th paychecks to replenish the fund.

HAPPY NEW YEAR!

Departmental News

Plant 1, Bill Henningsen's Group

Sherry Otte is home taking care of a broken toe. Lotus Miner is back in our group after being loaned to Finals. Marge Arnold is back from loan to Sunset.

New officers in the group are Opal Barth, group representative; Ganet Paulson, social chairman; Sherry Otte, alternate; and Beulah Williams, reporter.

Plant 1, Cables & Wire Prep

We have enjoyed helping and learning more about the Waverly Baby Home, which was our Christmas project.

We elected new group officers: Group representative, Norma Oberst; alternate, Edna Wetzel; social chairman, Sharon Wise; and reporter, Grace Phares.

The group celebrated the December birthdays of Irene David and Norma Oberst.

Building Service, Sunset Swingers

Rudy Glasnapp became a grandpa for the first time when a daughter was born to his son and daughter-in-law.

Capacitors, swing, treated swing-shift sanitation engineers to a potluck.

Howard Bean served rolls to celebrate his birthday.

Plastics Processing & Molding Plastics Nite Owls

Our needy family program was a huge success, thanks to all the people in Processing & Molding.

Christmas was celebrated with a ham dinner and gift exchange in Molding; Processing had a shift-long snack day and a gift exchange. We celebrated Luella Streimer's birthday at the same time.

All of us in Processing & Molding extend our deepest sympathy to Luella at the recent loss of her father.

Plant 2, The Short Liners

Special guests at our Christmas smorg were Al Hayes and Bud Rasmussen.

Erna Hansen "retired" after six years at Tek.

Our needy family greatly appreciated the many generous donations. "Thanks, Shortliners!"

Plant 3, Jim's Gems

Our group had a chicken smorg December 18 for Christmas and snacks on December 21 when we exchanged gifts.

Ethel Whitmore's youngest son, Lonnie, was married to Charlene Bauer December 14.

Warehouse, Stock Static

Fred Schuurmans, from Indonesia, received gifts from the Issuing group.

Ellen Slyter celebrated her sixth anniversary at Tek by treating the group.

A Christmas dinner dance was held December 15.

In honor of Piet Van Schijndel, we had a potluck December 5 to celebrate Saint Nicholas Day as celebrated in Holland.

Ceramics

We exchanged gifts December 21: Stan Jensen and Wes Eckleman acted as Santa Clauses.

Plant 1, Mechanical & Kit Prep

Cliff Wilson and Walt Uhrich treated the group for Christmas.

Kit Prep and Mechanical donated \$103 to Washco School for Retarded Children. We raised the money by having cookie, candy and cupcake sales and sponsoring a chili feed. We have a deeper meaning of Christmas because we shared with others.

Plant 3, Marshall's Deputies

Our group enjoyed a Christmas snack day and exchanged Christmas presents.

Chris Long is back in Portland Sanitarium for surgery.

Mary Charlson is taking a four-month leave.

CRT Bulb Prep

Bulb Prep wishes to thank all employees of CRT for their participation in the grab bag and silent auction. Generous bidding and donations made possible a \$291.14 donation which will be matched by Tek Foundation, the entire sum to go to Washco School for Retarded Children.

Plant 2 Support, Swing

At our last group meeting, new officers were elected: Group representative, Joan Sanders; alternate, Susan Loader; social chairman, Judy Henningsen; and reporter, Martha Whitmore. Our guest speaker was Al Hayes.

We congratulate the former Roberta Nelson, who recently became the bride of Allen Williams.

Monica Engstrom stopped by to wish us a merry Christmas. Monica was a summer employee.

The group wishes to thank Betty Mayer, the wife of our foreman, Bill Mayer, who treated the group to homemade cookies, fruitcake and candy.

Plant 3, Jim's Gems

New group officers are: Group representative, Art Stips; alternate, Mary Williams; social chairman and reporter, Jean Egberg

This year we elected to help the Washco School for Retarded Children.

Plant 1, Norm's Group

Dorothy Warren's son, Ensign William Warren, Jr., was home on Christmas leave after graduating from Officers' Submarine school. He reported to Pearl Harbor submarine base after the holidays.

Betty Glasnapp became a grandmother on December 19.

Plant 2, James' Gang

Our group had a smorg and exchanged presents for Christmas. We gave a bit of Christmas cheer to a family in need.

Hazle Royer is celebrating a great event—her first grandchild.

Betty O'Bannon had a Christmas party at her home for the group. Everyone had a very nice time.

Plant 1, Marv's Marvels, Swing

Kaye Hibbs, Yvonne Sandy and Marlene Botta are new in our group from Training.

We had a shower for Dianne Foster who went on maternity leave December 14.

Leann Bierly and Shirley Brown are loaned to Capacitors.

Our Christmas party was held December 20, with snacks, presents and mistletoe.

Darlene Thornton's husband is home on leave after five months in France.

Plastics Processing

Paul's Plastic Pills

Our group had a lot of fun during a white elephant sale. The proceeds went to Washco School for Retarded Children and to a blind couple.

Walter Leedom, Paul Zakrzewski, Ken Gross and Al Beguin provided chocolates for the holidays.

Plant 2, Friendship VII Swingers

We had snack night for Christmas and Dick Moore entertained us with his banjo-lute.

Vern Keller will transfer to day shift Monday and Don McDowell will be our new supervisor. Larry Fitzpatrick will replace Dick Moore as utility man January 14.

Jo Kiles is on the sick list with an injured eye.

Plant 2, Oscar's Awards

Our group enjoyed our Christmas smorg December 20.

Colleen Cleland went on maternity leave December 28.

Plant 2, The Solderettes

Clara Martin's sister from Chicago arrived December 26 to spend New Years. This is the first time they have been together in six years.

Plant 2, Derby's Fillies

We raised about \$85 for Washco School for Retarded Children.

Our Christmas smorg was a big success when we received a 24-lb. turkey instead of the 15-lb. bird we ordered.

Florence Schenk reported her hunting party brought back a deer from a special hunt in Dayville.

Plant 3, Johnson's Jewels

Our Christmas smorg was December 20.

Sharyl Johnson (Plant 3 Unit Wiring) announced her engagement to Harlan Fisher of Fort Lewis, Washington. No date has been set for the wedding.

Maxine Epling treated the group to celebrate her third anniversary at Tek December 28.

Olivia Lavine announced her engagement to Tom W. Hawes, electrical engineer with Army Corps of Engineers.

CRT Parts Prep, Adam's Eves

Martha Hanson was the happy winner of the lamp in the drawing put on by CRT Test to raise funds for Washco School for Retarded Children.

Cathodes won first place in Christmas decorating.

Dee Blohm extends her thanks for the lovely plant and all the nice cards sent to her during her recent illness.

MMQA

Velma Brooks' son, Jerry, received his discharge from the Navy after four years' service. It was the first time she had seen him for two years.

We had our Christmas smorg on Thursday, a spaghetti feed. Marian Crowell, who has been quite ill for some time, visited and joined us.

Our group extends sincere sympathy to Carole Correll at the death of her father.

Manuels

Lynne Meyers was hired from the Steno Pool to work in our department. She has been with Tek since October, formerly working in the Advertising department of U-Haul Trailer Co.

Don Smethers joined our group as a draftsman. He had worked in Plant 3 Finals.

Margaret Howell's son, Vincent, completed basic training at San Diego naval base and is home on leave. He will go to Great Lakes base near Chicago for further training.

Plant 3, Forrest Martin's Group

Susan Lee transferred to swing shift.

We extend our sympathy to Maxine Beach, who lost her brother in an auto accident.

Janet Harris and her husband, Allen, are in North Carolina because of a death in the family.

We extend our thanks to Howard Vollum for his thoughtful Christmas message and the long holiday weekend.

Capacitors, Swing

Diane Graham celebrated her two-year Tek anniversary.

Nancy Jensen treated the group. In return, we treated her and Dorothy Thorson when they returned to Unit Wiring, Plant 1.

Materials Management

Material Control

On December 15 we had our annual Christmas party, "Mistletoe Ramble," at Banks.

Plant 2 Finals

Bob's Vyna Koters

Don Nordone has been promoted from wire incinerator to ceramic debris and flux control technician—with his own private office!

Cables & Kit Prep, Plant 2

The group helped to make two families' Christmas a little brighter with gifts, toys and food.

Christmas treats, gift exchange and potluck were enjoyed by all the gals, supervisor Larry Sutton and U-man Lenny Nelson.

Plant 1, John Stevens' Group

Newly elected officers are: Dorothy Frye, group representative; Lella O'Dell, alternate; Pat Alberding, social chairman; and Cora Schmidt, reporter.

Our Christmas party was held December 21, with "Mr. Ed" Langerveld as Santa Claus.

Marge Montague treated the group December 28 to celebrate her second Tek anniversary.

Plant 1, Rickman's Relics

We thank George and Mrs. Rickman for taking pictures of our group, which were sold to us and the money placed in our fund for the Washco School for Retarded Children. We also had bake sales and a white elephant sale.

A bride-to-be party was held for Georgia Williams. She was married December 21 to Herbert "Bert" Fields, a student at Columbia Christian college. She received a gift, recipes, and a cake was served.

Our group had a Christmas party December 20. We exchanged gifts and served snacks.

Plant 1, Fables from Finals

Louie Lofland transferred to Capacitors.

We welcome Gary Pheil back from sick leave.

After our Christmas party, the tree, gifts and money were given to our needy family.

Daniel Coy is our new reporter; Jay Quimby resigned.

Plant 3, McCabe's Babes

Cables was divided, along with Wire Prep, from West Side group (Kit Prep & Mechanicals). Jerry McCabe is our new boss. He's from Test QC.

Delores Douglas is loaned to Plant 3.

Lorena Lambrecht and Esther Sipe work with us now.

Plant 3, Fred's Switchers

Gwen Mavis terminated December 28 to join her Air Force husband at Mt. Hebo, Oregon.

Our Utility man, Dick Plisk, is leaving us and in his place we welcome Mike Erickson. We welcome Mike to our group, but we are sorry to see Dick leave.

Fred's Switchers had a surprise shower December 14 for Mickey Harris, who went on maternity leave.

We celebrated Christmas December 20 with a snack day. Kathy Young, who is on loan to Sunset, came over to help us celebrate. We had our gift exchange December 21.

Anna Aschwanden, on loan to CRT, returned December 17.

Capacitors, Days

We celebrated Christmas with a potluck and gift exchange.

Pots served cake for Emma Glanz' birthday and Jane Harnett's third Tek anniversary.

During Christmastime Donna Breckel treated Resistors and Pat Johnson treated Diodes.

Phil Lapp, Plant 1 Finals, is on loan to Capacitors.

Treats were served to honor Clara Fairfield on her birthday.

CRT Gun Wiring

Millie Vandehey's son, Paul, was home for the holidays from submarine school in Connecticut.

Dorothy LaSalle's son, David, joined the Army and left for Fort Ord December 30.

These mornings have really been foggy, especially in Jo LeBrun's closet. But after one cup of coffee, and after the fog lifted, Jo discovered that she had worn one gold suede shoe and one tan leather shoe to work.

Jo Ann Wismers terminated December 28, to go back to school this month. She'll be teaching school next year.

Joe Van Lunen celebrated his fourth year at Tek December 22.

Plant 3, Jerry's Mixwells

We all say farewell to our utility man, Mike Erickson, and welcome Dick Pliska.

We had our Christmas smorg with Glen Sherwood's group and Finals. We also gathered toys, clothes and food for our needy family.

Job Postings

Tektronix employees should contact Alice Kida, ext. 7620 (8-7620 from Sunset), to apply for positions listed in JOB POSTINGS.

MAROON-STRIPED TIE: w/gold pin. Warren, ext. 7146.

RIDES WANTED

FROM BONNY SLOPE: 10426 N W Laidlow rd. to Bldg. 39, 7-3:30 shift. Nancy, ext. 7171.

FROM BRIDGEPORT RD: & Boones Ferry rd. to Tek, day shift. Diane McGuire, page 7301 or ME 9-3768.

WASHINGTON, D. C. . . . Around the Capital

NIGHT LIGHTS enhance the beauty of Tektronix' Washington field and Mid-Atlantic region offices. It is located ten miles from downtown Washington in northern Virginia.

The Washington, D.C., field office was opened in November 1958, by Scotty Pyle, Eb von Clemm, Rollie Smith, Marion Rothfuss and Art Anderson. The location is also Tek's region headquarters for the Mid-Atlantic, and Washington district office. Bill, Eilene, Eb and Shirley are daily concerned with the numberless problems of multiple office operation.

In the nation's capital, Tek's office provides field services for all the departments and agencies of the government. Major government labs such as National Bureau of Standards, National Institutes of Health, etc., occupy most of the field peoples' time, yet they deal with such non-electronic groups—that also use Tek scopes—such as the State Department and the Department of the Interior. There are Tek scopes in almost every major public building including the White House.

Another major segment of business is conducted with a growing number of research and development companies that have been

attracted by the proximity of government research labs.

Many call Washington, D.C., one of the most beautiful cities in the world. It is typically hot and humid in the summer with relatively mild winters (the British list it as a sub-tropical capital for their diplomatic personnel). There is no heavy industry; the economy is based largely on government payrolls.

Tek in Washington takes part in many symposiums and conferences sponsored by the IRE and similar organizations. For example: MIL-E-CON and SPSE. They exhibit occasionally and provide loaner instruments for customers from all over the country. Some of those customers are:

1. NASA, Goddard Space Flight Center—research and development of instrumented space probes;
2. NASA, Langley Research Center—research and development of advance aircraft design and space flight vehicles;
3. FAA Headquarters—home of many aircraft and engineering activities;

4. Naval Research Laboratory—major research projects in fusion, solid state, sound and many other fields;

5. National Institutes of Health—a very large medical research center under the US Public Health Service conducting research in cancer, heart disease, mental health, etc.;

6. National Bureau of Standards—research in the sciences and especially aimed at improving the accuracy of the nation's standards.

Everyone in the Washington office enjoys extra-curricular activities Miller Duris and Paul Lloyd, for example, are active members of the Naval Reserve. Lynne Myers and her husband, Larry, own two Porsche sports cars which they race. Aesthetic Jim McGrath paints. Art Andersen is infected with aviation fever that he contracted during his training period in Portland.

Bill Ewin Regional Manager
Art Andersen Duane Bowans
Eilene Smither Regional Secretary
Otto Roth Field Engineer
Eb von Clemm District Manager

Washington has an unusual traffic hazard. When driving downtown the FE must be on the lookout for Charlie Tourist who has a tendency to stand in the middle of the street trying to get a photograph of the Capitol or White House to paste in his album.

BEATING AROUND THE BUSH—Last summer Washingtonians decided to do something about the weeds that encompassed their new building. A do-it-yourself project was just the ticket; they planted 16 hollies and spread eight tons of pea gravel.

To the Editor:

Gentlemen:

The generous gift of equipment from Tektronix, Inc. to Portland State college was reported to the State Board of Higher Education at its December 11 meeting.

The Board officially accepted this gift of a 27-minute film titled "Time and Quantity" to the Portland State library and directed me to express its thanks and appreciation for the interest of Tektronix, Inc., in our institutions.

Yours very truly,
Earl M. Pallett, Secretary
 State Board of
 Higher Education

December 26, 1962
 Rt. 2, Box 270C
 Hillsboro, Oregon

To all the employees who helped to make our Christmas a brighter one:

I hope I'm giving thanks to the right place. They said they were Tektronix employees. Thanks again.

The McWilliams family

Teks in the News

Dick Withycombe (Product Administration operations analyst) wrote an article entitled "Deviation from the Economic Order Quantity." The article will be published in the January-February 1963 issue of the Journal of Industrial Engineering.

Barbara Ann Zielenbach, former secretary at the Union, N. J., field office, was married December 29, to **Jerry Racanelli** of Plant 3 Test. They were married in New Jersey where Jerry was a Tek field engineer for about one year. Barbara starts work as Bob Wruble's (Field Maintenance Support) secretary Monday.

Treasurer **Don Ellis** was recently re-appointed as a member of the State Board of Census. He'll serve a four-year term. Don has been chairman of that group for the past five years.

On December 9, **Richard Brown** (Field Training) transferred to Philadelphia field office as an FME; on December 19, Philadelphia also gained **Bill Irby** (Washington FME).

Clara Bell Stroup Dies

Clara Bell Stroup (Unit Wiring, Plant 3) died Friday, December 21 after a long illness. Clara began work at Tek in November 1961 but had been on sick leave for the past several months.

She is survived by her husband Jack and four children: Don, Dianne, Susan and Roger. An Employee's Beneficiary Assistance Fund check was delivered to Jack on Friday.

Teks Give Radio Course

Dennis Crop (Research, Device Application) and Ron Van Dyke (Instrument Manufacturing Information Services) will teach a second Amateur Radio Preparation program beginning next Thursday, January 10.

The 20-week course will be held Thursday nights, 7:30-9:30, at Forest Grove Union high school. Lectures will present the theory and code necessary to qualify for a general amateur radio operator's license.

Cost is \$10 for each of the two 10-week sessions; enrollment will be limited to 20.

Tekweek

TEKWEK is published every Friday for Tektronix employees by the Communications department in cooperation with the Printing and Photography departments. Carol Day, editor-writer; Donn Beck, staff-writer; Jane Martin, staff-writer; Graphic Arts group, layout and paste-up. Del. station 74-298; extension 405.
